Master Blaster

Non-slip rubber grip

Jet Spray

Durable rubber protection absorbs knocks

Uses up to **30% less water**, and helps you clean up in more ways than one.

Master Blaster delivers both **powerful cleaning action** and **considerable water and cost savings** over traditional nozzles. Designed specifically for general washdown and equipment cleaning on U.S. dairy operations, they offer a unique combination of benefits:

- Delivers 43.5 psi of cleaning pressure at just 14 gal/min
- Non-slip, nylon rubber grip
- Impact-resistant head
- Easy-to-adjust spray pattern
